

Orthopedic Regeneration Specialized Treatment Plan

This innovative, trifecta medical approach
delivers results!

www.HartfordNeuropathy.com

Before you go for your next tissue-damaging cortisone injection or commit to that high-risk surgery, learn about our Orthopedic Regeneration Treatment Plan. We experience very high success rates, even with very challenging orthopedic patients, including "bone-on-bone" knee conditions, and will not accept you for care if we don't feel we can help you!

We'll give you honest answers so you can determine if our treatment plans are a good fit for your condition.

Call to schedule a free phone consultation or an in-clinic exam.
